dm4 in brushed aluminum: innovations for comfort and convenience.

HP technology is inspired by the way you think, feel, act and interact:

- HP's CoolSense Technology makes it cool to lounge around with your notebook. By rethinking the materials, venting, and the placement of components, HP has pioneered new designs like the dm4 that feel noticeably cooler. With an exclusive software control panel (included), simply select your comfort level. Your dm4 will sense whether you're using it at a desk or, say, on a couch—and adjust accordingly.
- HP SimplePass: access your PC and online accounts with a swipe of your finger. Remembers your passwords for you!
- Chat in HD[8] with the HP TrueVision HD Webcam.[15] When there's less light, your webcam automatically boosts sensitivity—so you can still look your best even with lights turned low. Capture high quality HD video[8] or still images. Send to friends, upload to Facebook![15] Bonus: Built-in dual array microphones help quell background noise for clearer, crisper vocals.

Get all this in your dm4, too.

- Dolby Home Theater with support for Surround Sound through speakers and headphones
- HP CoolSense technology. Just set your comfort level—it does the rest!
- Built-in HP TrueVision HD low-light webcam[15]
- HP SimplePass fingerprint reader for extra security plus convenience
